

I listen to KLOVE daily and prefer it to other radio stations in my area especially during my commute to and from work. They broadcast a positive, uplifting message and music, and I enjoy the commercial-free aspect of this station. If KLOVE is replaced by a commercial LPFM station, I would not have access to the same type of music on commercial-free stations in Denver. Additionally, I believe the service provided by KLOVE is beneficial to those listeners who want to hear Christian music and the message of the Gospel. Please do not replace my KLOVE with a low power FM station!

Respectfully,  
Dana Jensen
